Notes for tables:

- The count of serious assaults is based on the number of victims assaulted that sustain serious injury, not the number of assault incidents. For example, an assault by two prisoners on one member of staff is counted as one assault, whereas an incident in which one prisoner assaults three staff members but only two staff sustain serious injuries would be counted as two assaults.
- The count of non-serious and no injury assaults is based on a count of incident events.
- Data provided is subject to change as incidents may be further investigated and reclassified. Accordingly, the information is not comparable to previously reported information.
