

Impact measure performance and baseline comparison

Outcome	Impact	Impact Measure	2007/08		2008/09		2009/10		2010/11 Budget Standard	2011/12 Budget Standard	Directional movement
			Māori	Non-Māori	Māori	Non-Māori	Māori	Non-Māori			
Public Safety	The integrity of sentences and orders is maintained and offenders are held to account	More offenders complying with their sentences and orders, or being held to account								≥90%	←
		Decreased rates of escapes from custody	0.33	0.26	0.20	0.10	0.12	0.09	0.23	0.20	←
		Breakout escapes	0.03	0.15	0.10	0.03	0.07	0.00	0.09	0.08	
		Other escapes	0.31	0.10	0.10	0.08	0.05	0.09	0.14	0.12	
	A decreased percentage of positive general random drug tests within prisons	Remand	16%	11%	15%	8%	13%	7%	-	≤16%	←
		Sentenced								≤10%	←
	Risks of harm to others are minimised	Decreasing rates of serious prisoner assaults, both on staff and on other prisoners	0.46	0.31	0.52	0.55	0.41	0.35	0.36	0.35	←
		Prisoner/Prisoner Prisoner/Staff	0.10	0.05	0.10	0.18	0.02	0.02	0.09	0.09	
	The Judiciary and Parole Board make informed decisions	Reductions in community offenders' risk of harm to others									
		Reduced rates of re-offending committed by offenders on parole or Home Detention									
Improved reports to the Judiciary and the Parole Board - more reports provided within agreed timeframes and to agreed standards pursuant to the Judiciary's and the Parole Board's requirements								≤90%	≤90%	↔	
All offenders being notified as per the NZPB requirements								100%	100%	←	
	All victims being notified as per the NZPB requirements							100%	100%	←	
Re-offending is reduced	Offenders have the skills and support to lead law-abiding lives	Reduced re-offending rates for key rehabilitative programmes									
		Reduced likelihood and seriousness of offending for community-based offenders									
		More skills being gained by prisoners including: increased average number of credits achieved under the National Qualification framework							24	27	↔
		increased percentage of prisoners who demonstrate measurable increases in literacy and numeracy after starting classroom-based adult literacy and numeracy course									
		More prisoners finding stable employment on release from prison, including: increased percentage of Release To Work prisoners with secured employment on release increased percentage of prisoners employed post-release (to be developed during 2011/12)									
	More prisoners finding stable accommodation on release from prison (measure to be developed during 2011/12)										
	Offenders' health and wellbeing is maintained	Decreased rates of unnatural deaths of offenders	0.03	0.10	0.02	0.10	0.02	0.12	0.08	0.08	←
		Fewer incidents of self-harm by offenders	0.36	0.33	0.42	0.40	0.36	0.37	0.60	0.30	←
		Fewer justified complaints to the Corrections Inspectorate							-	-	←
		The proportion of prisoners with health needs that have been managed during their time in prison									←
Fewer justified complaints by prisoners relating to the provision of health services								-	≤3	←
