Custodial performance is measured across 12 months. ASCF was fully operational from Oct-15 and the Q1 2016/17 results are the first directly comparable results available.

Needs Improvement	Needs Improvement	Effective
Needs Improvement	Needs Improvement	Effective

## Notes:

Previous quarter scores and table positions may be amended since last publication due to receipt of late data, changes in incident and justified complaint outcomes

The model will be reviewed periodically to ensure relevance to the changing custodial environment

If a prison does not record a core security event then the prison is graded based on the internal procedures score.

Prisons within a performance grade are ordered by the Internal Procedures score.

^ Core security - includes the number of unnatural deaths, breakout escapes, significant disorder events and escapes from an escort. If a prison records a core security event that prison will automatically receive grade of needs improvement, regardless of the internal procedures score

\* Internal procedures - includes performance against assaults on staff and prisoners, justified complaints, and % of positive general random drug tests.
