

UPDATE TO THE PHONE SYSTEM

LOCAL NUMBERS NOW SHOW ON PHONES

SITE:

We have made a change in the telephone system so that when you receive a call from someone in prison you will see the prison's telephone number on your caller display (if you have caller display) with the local area code.

For this site, you will see this phone number:

Previously you would have seen either an Auckland or Wellington number on the display.

You are not able to call this number back - it is just a display number.
